At British Cleaning Solutions, adherence to Compliance is of utmost significance. Our licenses and permits align with the latest BESA and TR19 standards, alongside industry best practices for quality, safety, and environmental considerations. Whether it pertains to fire prevention maintenance or hygiene protocols, our clients can be completely assured that we consistently keep ourselves up-to-date regulations to meet their requirements.

Our focus is to provide our clients with exceptional guidance and first class services, ensuring that safety and hygiene standards are consistently elevated to the highest levels possible. We take immense pride in our dedication to delivering results that truly reflect the quality and excellence associated with our name. Safety is paramount in every aspect of our work. We prioritise the safety of our team, your property, and the environment. Our stringent safety protocols and ongoing training ensure that risks are minimised, providing a secure environment for our clients.

In an environmentally conscious world, we take our responsibility seriously. We strive to reduce our environmental footprint and adopt eco-friendly practices whenever possible. Our commitment to environmental responsibility goes hand in hand with our dedication to quality and safety, ensuring a holistic approach to our services.

Our licenses and permits are aligned with the latest BESA (Building Engineering Services Association) and TR19 standards. These standards are the benchmarks of our industry, covering a wide range of crucial aspects, from system efficiency to safety protocols. By adhering to these standards, we assure our clients of our dedication to delivering top-tier services.

We're Here to Help

Cleaning solutions tailored to your needs

At British Cleaning Solutions, our mission is to safeguard the UK with unwavering dedication to hygiene and safety. We are committed to creating a cleaner, safer, and healthier environment for businesses across the nation. Our approach is founded on the core principles of collaboration, efficiency, compliance, and excellence.

Together, we are dedicated to building a cleaner, safer, and more hygienic future for businesses across the United Kingdom. Join us in our mission to create a healthier and more vibrant community.

Collaboration

Collaboration lies at the heart of our approach. We understand the unique challenges businesses face and recognise the importance of working closely with our clients to ensure optimal outcomes.

Compliance

At British Cleaning Solutions, adherence to compliance is of utmost significance. Our licenses and permits align with the latest BESA and TR19 standards, alongside industry best practices for quality, safety, and environmental considerations.

Efficiency

We recognise the time-sensitive nature of our services and the impact they can have on your business. Therefore, our dedicated team prioritises efficiency without compromising quality.

Commercial Services

Kitchen Extraction & Kitchen Deep Cleaning

Kitchen Extraction Cleaning

Our kitchen extraction cleaning and maintenance service adheres to B&ES standards. We enhance air extraction and safety for commercial and industrial vent systems. Extraction fans, crucial for expelling fumes, can clog with grease, posing fire risks and reducing efficiency.

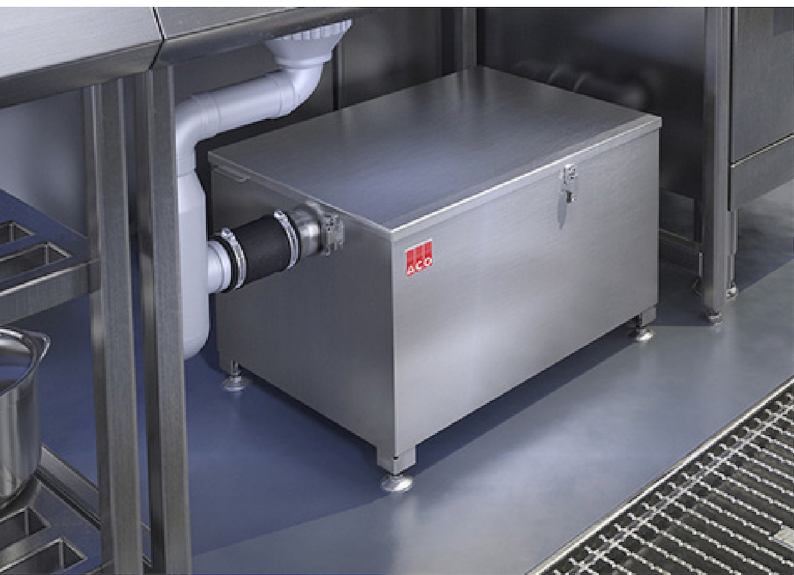

Kitchen Deep Cleaning

Our commercial kitchen cleaning service employs steam and proven methods to eliminate grease and dirt effectively. Our aim is to ensure high hygiene standards and create a bacteria-free environment in compliance with relevant legislation standard

Commercial Services

Grease Trap & Hard Floor Cleaning

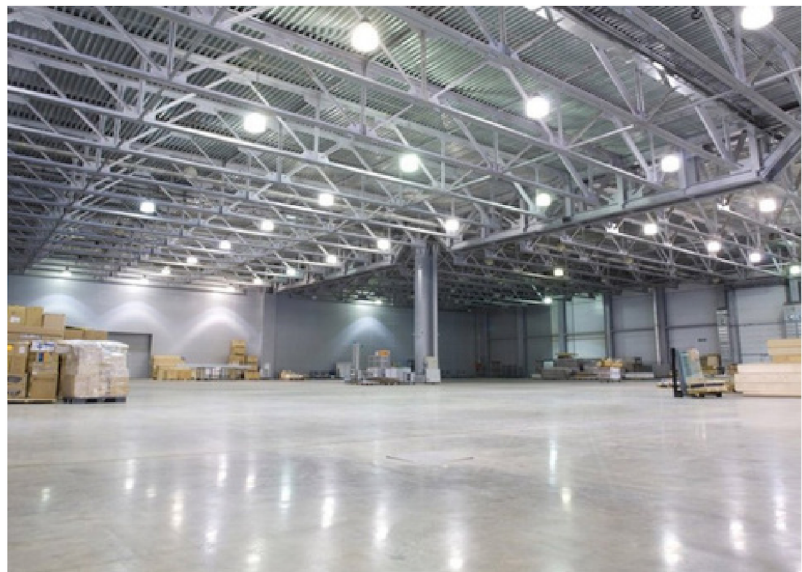

Grease Trap Cleaning

Insufficient grease trap upkeep leads to rapid grease build-up, hindering trap efficacy.

Accumulated grease poses disposal challenges and emits unpleasant odours. Our cleaning service prevents drain blockages and malodours by safely removing and disposing of waste.

Hard Floor Cleaning

We provide comprehensive hard floor cleaning and restoration services tailored to your floor type and condition. Our industrial equipment efficiently removes spillages, moss, algae, and dust buildup. We then apply coatings to extend floor lifespan and maintain durability.

Commercial Services

Vehicle Fleet & Airline Cleaning

Vehicle Fleet Cleaning

Quality is paramount in our approach. Vehicle cabs and surfaces are meticulously brushed and pressure washed. We focus on details like windows, lights, chassis, wheel arches, and spray flaps. Our top-quality detergents are solvent and caustic-free, sourced from our own supply company.

Airline Cleaning Services

We offer specialised airline cleaning services, ensuring hygiene and presentation of aircraft interiors for exceptional passenger experiences. Our fully qualified team prioritises critical elements, guaranteeing satisfaction and a dependable service.

Industrial Services

After Builders & External Building Cleaning

After Builders Cleaning

We recognise the significance of post-construction cleans, ensuring your project is presented in its best form. Our specialised equipment and meticulous care address the unsightly and unhealthy dust and debris, delivering optimal results.

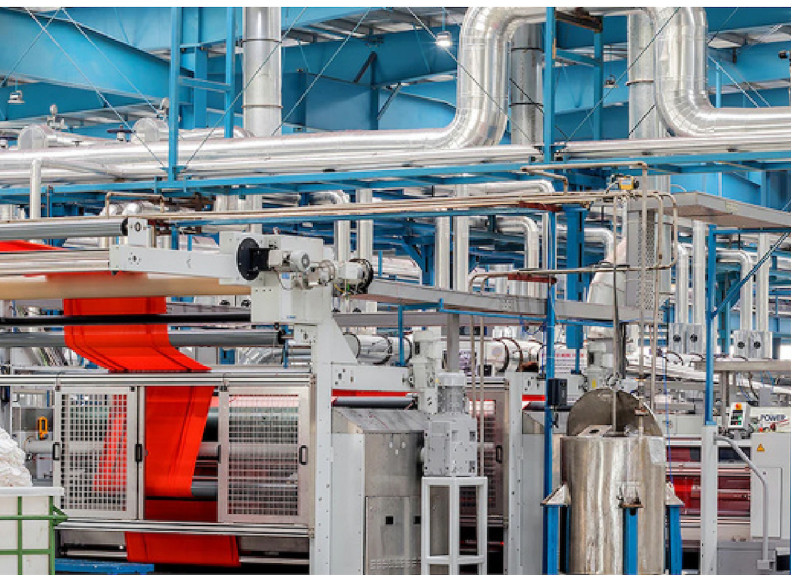

External Building Cleaning

We understand the significance of exterior cleanliness, viewing it as vital as interior upkeep. Our comprehensive external cleaning services offer a complete solution to maintaining a pristine building appearance, ensuring top-to-bottom cleanliness.

Industrial Services

Factory & Production Line Cleaning

Factory Cleaning Service

We offer customised cleaning solutions for every industrial project, adept at handling oil, chemical spills, equipment, and surfaces. Our specialised teams deliver professional cleaning services, guaranteeing minimal disruption to production operations.

Production Line Cleaning

We understand the importance of meticulous cleaning after the construction phase. Our team is equipped with specialised tools and techniques to effectively eliminate dust, debris, and any post-construction residues from your modular build project.

Industrial Services

Industrial Spill & Modular Build Cleaning

Industrial Spill Cleaning

We offer extensive experience in industrial damage and spills cleaning, supported by our dedicated research team. Our specialist cleaners, equipped with advanced tools, undergo thorough training to handle diverse situations effectively.

Modular Build Cleaning

We understand the importance of meticulous cleaning after the construction phase. Our team is equipped with specialised tools and techniques to effectively eliminate dust, debris, and any post-construction residues from your modular build project.

Disinfection Services

Infection Control & Disinfection Cleaning

Infection Control

Infection control and contamination within your facility are crucial for your business and the well-being of your employees. Our specialist infection team provides tailored virus containment packages to minimise the impact of virus and infection outbreak

Disinfection Cleaning

Whether you encounter a one-off emergency situation or seek scheduled disinfection solutions, our dedicated team stands ready to deliver a swift response round the clock, ensuring the safety and well-being of your premises and occupants.

Disinfection Services

Emergency Response & Clinical Cleaning

Emergency Response Cleaning

Our emergency response operatives swiftly arrive on-site to devise a thorough plan for initiating the decontamination process. Utilising our specialised cleaning techniques and advanced fogging disinfection systems, we ensure the complete elimination of all harmful microorganisms.

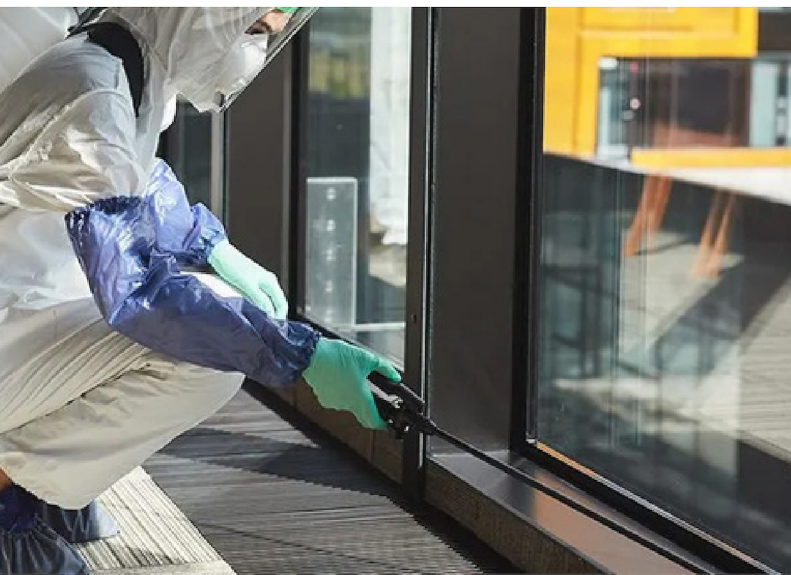

Clinical Cleaning

Maintaining the highest level of hygiene standards in critical settings like hospitals and labs requires meticulous planning and flawless execution. We work closely with clients to ensure strict standards, delivering impeccable sanitary cleaning services.

Disinfection Services

Decontamination & Biohazard Cleaning

Decontamination Cleaning

Through years of experience, we've honed effective strategies for decontaminating facilities affected by illness outbreaks like viruses or spills of bodily fluids. Our specialist team employs advanced disinfecting cleaning methods to swiftly mitigate risks and prevent further cases.

Biohazard Cleaning

Biohazards carry viruses and pose health risks. We swiftly disinfects areas post-incident, ensuring safe disposal of hazardous waste with minimal disruption. Our 24/7 emergency services, led by experienced professionals, operate discreetly.

Specialist Services

Air Duct & High Level Cleaning

Air Duct Cleaning

Our comprehensive ventilation duct cleaning service guarantees thorough cleaning of all extract systems. We use medical-grade disinfectant to eradicate bacteria, viruses, and other harmful microorganisms, ensuring a safer environment

High Level Cleaning

High-level areas, challenging to reach, often accumulate dirt, posing hygiene risks, notably in factories and production facilities. We offer high-level cleaning for industrial and commercial clients, including one-off cleans and maintenance packages.

Specialist Services

Microbiological & Fire Damper Testing

Microbiological Testing

We provide tailored packages for facilities needing routine sampling, such as hospitals, laboratories, or food processing plants. Samples are analysed in our lab to assess if further action is necessary, ensuring comprehensive solutions.

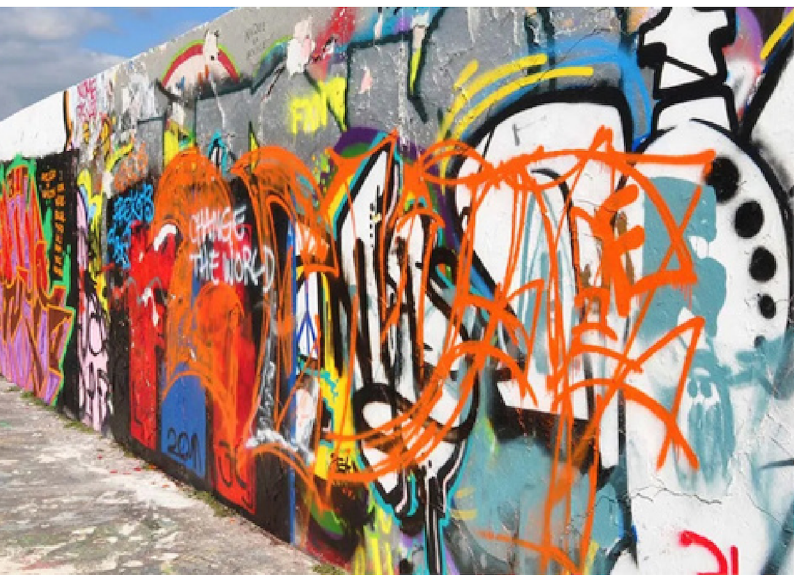

Fire Damper Testing

We offer a variety of fire safety and inspection services, encompassing fire damper testing, cleaning, and maintenance. With our extensive experience in fire safety auditing, we ensure adherence to current industry standards, meeting specific regulatory requirements.

Specialist Services

Graffiti Removal & Solar Panel Cleaning

graffiti Removal

We comprehend the impact of graffiti, which is why our professional removal service is tailored not only for swift graffiti removal but also for long-term prevention with our anti-graffiti coating. Our experts adeptly remove graffiti from various surfaces including glass, brick, and wood.

Solar Panel Cleaning

Our seasoned professionals employ cutting-edge methods and environmentally-friendly solutions to eliminate dirt, grime, and debris, ensuring peak energy production. Rely on our expertise to boost your solar panel efficiency and prolong its durability.
